WORK EXPERIENCE

Software Engineer

Nov 2025 -Current

Vypar / Surat

- Implemented production-grade monitoring using Grafana and Prometheus to track system performance and application metrics in real time.
- Built a CSAT (Customer Satisfaction) system integrated with WhatsApp to analyze support agent performance and help reduce churn and refund rates.
- Assisted in the development of scalable web applications using React.js and Node.js, focusing on performance and maintainability.

MERN Stack Intern

Sep 2025 -Nov 2025

Vision Infotech / Surat

- Developed multiple full-stack websites with fully responsive designs using React, Tailwind CSS, and Node.js/Express.js for the backend.
- Integrated Stripe payment gateway to enable secure and smooth online transactions.
- Implemented state management using Redux Toolkit, and leveraged additional tools to enhance application performance and scalability.
- Designed modular and reusable components to maintain a clean codebase and support easy future updates.

Digital Marketer

Jan 2024 - June 2024

Tech Vibe Infotech / Surat

- Built and maintained websites and landing pages using WordPress, ensuring responsive and user-friendly designs.
- Created social media graphics with Canva and managed content scheduling to increase engagement.
- Assisted with digital marketing tasks including keyword research and ad campaign optimization.

SKILLS

Languages	Typescript, JavaScript, HTML, CSS
Frameworks/Libraries	React.js, Bootstrap, Tailwind CSS, Node.js, Express.js, Shadcn, Redux, Mui, Prometheus, Grafana, ClickHouse, Kafka etc
Databases	MongoDB, MySQL, Postgress
Tools	Git, GitHub, Postman, GitLab
Other Skills	REST APIs, Responsive Web Design, Problem-Solving, Debugging

PROJECTS

Cookie-stuff (E-commerce website) - [Live Demo](#)

- Built a complete payment flow using Stripe, managing both the frontend checkout and backend transaction handling.
- Designed and developed a fully responsive user interface with Tailwind CSS, Material UI, Swiper, and React Slick for an engaging user experience.
- Implemented core features like user authentication (login/register), add to cart, and secure payments using Stripe.
- Used Redux Toolkit, Context API, and React Hooks to manage application state and improve data handling across components.

On-kudrat (E-commerce) - [GitHub](#)

- Built a full-stack e-commerce application using React/Vite for the frontend and Node.js/Express for the backend.
- Implemented essential e-commerce features including user authentication (login/register/forgot password/email verification), add to cart, and product filtering for a complete shopping experience.
- Designed a fully responsive and modern UI using Shadcn UI and Tailwind CSS, ensuring smooth performance across all devices.
- Focused on reusability and scalability by creating modular components and maintaining a clean, well-structured codebase.

SplitEx (Split expense among friends , family and group) -[GitHub](#)

- Developed SplitEx, a full-stack expense and payment management application using React and TypeScript for the frontend and Node.js for the backend.
- Implemented secure user authentication using JWT to manage sessions and protect user data.
- Integrated Stripe for handling payments and managing financial transactions efficiently.
- Designed and utilized Redis-powered background jobs and cron tasks to automate processes and improve performance.
- Built a scalable backend architecture using MongoDB to handle structured data and ensure reliability.

Event Booking System -[GitHub](#)

- Developed a MERN-based Event Booking System that enables users to browse and book events with real-time seat availability.
- Implemented secure authentication using JWT to manage user sessions and protect access.
- Designed and built RESTful APIs to handle event data, bookings, and user interactions efficiently.
- Integrated WebSocket-based live updates to provide real-time seat availability and enhance user experience.
- Focused on delivering a seamless and responsive booking experience through efficient frontend and backend integration.

EDUCATION & CERTIFICATES

Full Stack Developer Course

Jan 2025-July 2025

Naresh i-Technologies, Ameerpet, Hyderabad

Bachelor of Science

Jan 2023

Veer Narmad South Gujarat University, Surat City
